GENERAL NEWS.

(BY TELEGRAPH TO THE OREGONIAN.)

Soundings on the Isthmus Canal Project.

NEW YORK, Oct. 12.—The World has the following: The following communication is especially interesting in that it meets some of the objections to the interoceanic canal set forth by Chief Nimmo of the bureau of statistics in his recent treatise on the subject, and will effectually set at rest all future objections of that kind:

U. S. HYDROGRAPHIC OFFICE, BUREAU OF NAVIGATION, WASHINGTON, Sept. 22, 1880. Rear Admiral Daniel Ammen, U. S. N.—Sir:—In accordance with your verbal request I have caused to be compiled from records of this office the information which you desire in reference to percentage of calms and variable winds which prevail in the bay of Panama and on the coast of Nicaragua respectively. From a total of 2353 observations in the bay of Panama, and of 1768 observations on the coast of Nicaragua, and in each case covering roughly the same extent of ocean, it appears that calms and variable winds at the former locality amount to [illegible] per cent. of the whole number of observations, and at the latter they amount to five per cent. In order to reach the region of trade winds, sailing vessels from Panama bound to India, Japan, California and the northwest coast, in coming out of the bay and towards making necessary northing, will be obliged to make 600 miles through variable winds and calms before fixing themselves in as good a position to make their westing as vessels leaving the coast of Nicaragua. Very respectfully,

J. B. P. DEKRAFFT,
Hydrographer to Bureau of Navigation.

Tammany and Irving Hall.

NEW YORK, Oct. 12.—To-night at a meeting of the Tammany Hall committee on organization the district leaders were called upon to express their views regarding coalition with Irving Hall on a county ticket. It was the unanimous opinion that no fusion should be completed unless Tammany was conceded the right to nominate the candidate for mayor. A World reporter interviewed a group of prominent Tammany Hall democrats. Nearly all of them considered the prospects for uniting the parties on a county ticket [illegible] obscure. One was asked: "If the [illegible] are in the field—Tammany Irving Hall [illegible]—who will your party nominate for mayor?" "Probably Franklin Edson," was the reply.

The Great Parade.

[illegible] the Sun admits that last night's parade was [illegible] numbers, discipline and brilliancy of display all [illegible] had planned.

The procession [illegible] of Masons and school boys, white and colored. After the parade the Maryland Historical society listened to orations and gave a banquet in the evening. Parade of military will take place to-morrow.

Fast Time from Sydney to London.

NEW YORK, Oct. 12.—The steamship Arizona leaves here to-day. She takes Australian mails of the [illegible], received at San Francisco by the steamship [illegible] Sydney, and which was dispatched by special train, 3300 miles at a cost of $1000 to overtake the regular train which left San Francisco on [illegible] 5th. This train, with the mails, arrived at Jersey City last evening at 10 o'clock. It is expected the mails will reach Queenstown in 7 days, making the time from Sydney to London 41 days. According to the last report of the postmaster general of New Zealand, the average time consumed in the transit from Sydney via San Francisco has been 45 days and about 8 hours, and by way of Suez canal 46 days and about 2 hours. It will therefore be seen that the City of Sydney has reduced the time of [illegible] half days.

According to this total registration will reach 45,000, which is 5000 in excess of [illegible] the registrar believes would be the honest [illegible]. Information has reached Registrar [illegible] of a character which convinces him beyond [illegible] that fraud is being perpetrated by repeaters. The registrar says he has no means of [illegible] which party is responsible for the [illegible] work, but he is convinced that a greater [illegible] than 40,000 ought to excite suspicion.

[illegible]

In explanation of the meagreness of our telegraph reports as well as of the great delay in receiving them, it is necessary to state that at an early hour on Tuesday morning the wires beyond Laramie for many miles were prostrated by a heavy wind storm, and since then there has been no continuous telegraphic communication. Such reports as have been received have come by rail from Sherman to Laramie.

FROM YESTERDAY'S 2D EDITION.

An Enormous Vote—Returns Favorable to Republicans.

Heavy Vote at Cincinnati.

CINCINNATI, Oct. 12.—The vote began very early, and by 1 P. M. the number of ballots in the boxes in many precincts exceeded the total vote of last year. Business was practically suspended and there has been no trouble up to the present time. Polls are closely watched everywhere. Very little scratching done. Republicans regard the heavy vote as in their favor.

The Candidates in Ohio.

The candidates in this state are as follows: For supreme court, G. W. McIlvaine, republican, M. D. Follett, democrat; secretary of state, Townsend, republican, Wm. Lang, democrat; clerk of supreme court, Dwight Crowell, republican, R. J. Fanning, democrat; member public works commission, W. B. Hosner, republican, W. J. Jackson, democrat; school commissioner, D. F. DeWolf, republican, J. J. Burns, democrat. The greenback vote will not be considered in this comparison. There are 1369 precincts in the state. The first return was had from Green Camp township, Marion county, which gives McIlvaine 177 and Follett 164, republican gain 14.

Progress of the Voting at Columbus.

COLUMBUS, Oct. 12.—Reports from all over the state up to 3 o'clock say the weather is fine, and the full strength of the parties is coming out. The republicans now claim gains sufficient to carry this city, though the county will undoubtedly go democratic. The vote of employes of manufacturing establishments almost uniformly republican with but little scratching. Saloons are closed and no drunkenness exists. It is as quiet an election as was ever known.

COLUMBUS, Oct. 13—2 A. M.—Returns from 315 townships, wards and precincts in the state show a republican gain of 5140. As these returns embrace polling places from almost every county in the state, they are taken as foreshadowing an increased republican majority probably reaching 20,000.

A Tremendous Vote Polled.

CHICAGO, Oct. 12.—Dispatches from Columbus, Cincinnati, Cleveland, Hamilton, Springfield and Toledo, in Ohio, and Indianapolis, Fort Wayne, Covington, Shelbyville, Terre Haute, Evansville, Laporte and South Bend, in Indiana, say the day has been beautiful throughout both states and the vote been unprecedentedly large. In all localities business men of both parties exhibited great activity, and good feeling generally prevailed. Scratching was rather the exception than the rule. Comparisons in Indiana are made with the vote for governor in 1876, and in Ohio with the figures for governor in 1879.

Going towards High Water Mark in Ohio.

COLUMBUS, Oct. 13, 2 A. M.—Returns outside the city continue to steadily increase the republican gain with the exception of those from Hamilton county. Just one quarter of the whole number of precincts and townships in the state are now in, and the net republican gain is 5234. If the proportion holds good McIlvaine's majority over Follett for supreme court judge will be about 27,000. Although republicans are sanguine of reaching that figure, democrats have not given up their claims of carrying the state and it seems likely that later returns will somewhat diminish the heavy and unlooked for gains which republicans have been making.

COLUMBUS, Oct. 12.—Returns from 428 precincts, wards and townships show a republican gain of 2230.

Ohio Congressmen.

COLUMBUS, Oct. 13.—Midnight—The chairman of the republican committee says it is now likely that the republican majority on the state ticket will insure the election of 15 and probably 16 republican congressmen.

Republican Gains in Indiana.

TERRE HAUTE, Oct. 12.—The city democrats concede a republican gain of 250. The returns thus far received are nearly all from the smaller precincts. No official returns from cities or larger towns.

INDIANAPOLIS, Oct. 13.—Reports from 800 towns give a republican gain of 4761. With the same rate of gains in the state the republicans would have a plurality for governor of 1000.

At Newark, N. J.

NEWARK, N. J., Oct. 12.—The city election resulted in an average republican majority of about 2500. Republicans elect 11 aldermen, democrats 5. Common council will stand 18 republicans, 12 democrats. Republicans also gain four members of the board of freeholders. The German vote was strongly republican.

Prodigious Vote in Cincinnati.

CINCINNATI, Oct. 12.—The vote polled to-day is 20 per cent. larger than ever polled before. The militia called out by Mayor Jacobs, in anticipation of trouble, were kept all day in the armory.

The Vote at Toledo.

TOLEDO, Oct. 12.—The election in this city brought out the full strength. The national and prohibition vote is insignificant. Incomplete returns indicate that the republicans have carried the city. The chairman of the republican committee claims a majority of 500. The district is probably republican by 500 majority.

Landers Badly Scratched.

CHICAGO, Oct. 11.—An Indianapolis special to the Tribune says as the election proceeded it was evident that Landers was being quietly but industriously scratched by two classes of democrats, the men who cannot stomach him and the workingmen who have special cause to dislike him as no friend of the working classes.

LATER.

The Excitement in New York.

NEW YORK, Oct. 13—2 A. M.—The greatest interest had been manifested during the day in the result of the elections in Indiana and Ohio. Crowds of people were besieging newspaper offices eagerly scanning the meager and unsatisfactory reports that came during the afternoon. In the evening the crowds increased and thousands of people swarmed the streets in front of the bulletin boards. Elaborate preparations had been made for displaying the news, and as fast as returns came in they were posted up where they could be seen by all. Fifth Avenue Hotel was thronged and the streets outside were filled. There was very little betting going on, both sides being too timid. When the returns finally made it apparent the republicans had carried Ohio by a good majority and had probably triumphed in Indiana, a great shout went up from the crowd in front of the Times and Tribune offices, while the democracy, who had gathered in front of the Sun and World offices, suddenly disappeared.

The "Boys with the Blues."

CHICAGO, Oct. 13.—The Inter Ocean's Washington special says: The streets are crowded around the bulletin boards, and there is much excitement. The first returns received being very favorable to the republicans, they are correspondingly elated. At the democratic headquarters the managers look blue and confess that they have no cheerful news to offset that which the republicans are receiving.

Details of Returns.

INDIANAPOLIS, Oct. 13, midnight.—Indications are that Porter, republican candidate for governor, is elected by 1000 majority. Democrats do not concede the defeat of Landers, but say the vote will be close, and claim the balance of the state ticket. One hundred precincts show democratic gains of 24 and republican gains of 9[illegible]9, net republican gains of [illegible]28.

INDIANAPOLIS, Oct. 13.—Republicans claim the state by 5000, but democrats claim that returns do not show it, and they hope when remaining precincts are heard from that Landers will be elected by a small majority. The Journal (Rep.) says returns show gains which, if continued at the same ratio, would elect Porter by 1000 majority. We hear of heavy republican gains in large cities especially in manufacturing centers where the tariff question assumed the proportions of a leading issue. In Indianapolis city and county, incomplete returns, estimated republican majority 2400, a gain of over 900. Three hundred and ninety Indiana precincts show a democratic gain of 3471, republican gain, [illegible], net republican gain [illegible].

CHICAGO, Oct. 11.—The Daily News' Indiana specials say that the republicans gain on complete returns, in Allen county, 258, Carroll, 144, Morgan [illegible], St. Joseph, 337, Cass, 268, Fayette, 215, Marion, 2108, Noble, 213. The republicans elect seven congressmen—a gain of one.

CINCINNATI, Oct. 13.—Complete returns from Hamilton county, except three precincts, give Townsend, republican secretary of state, a majority of 263. McIlvane, republican judge for supreme court, 3219. The three precincts to hear from gave a democratic majority of 811 last year. Comparing the vote on judge of supreme court with that of governor last year, this would show a democratic gain in the county of 777. Butterworth (republican) majority first district will be 1480. Young (republican), second district about the same.

CLEVELAND, Oct. 13.—Complete returns from Cuyahoga county give Amos Townsend for congress a majority of 5,[illegible].

Ohio democrats lose four congressmen certain and possibly six. Indiana is probably republican by 3000 to 4000 majority.

[illegible]—Chairman Nash has just received a telegram [illegible] that [illegible] is probably elected in the tenth district, a republican gain.

Returns from several precincts of this city and county indicate that republicans have [illegible] and all indications point to a largely increased vote through the state.

How the Reports were Received at Committee Rooms.

CHICAGO, Oct. 13.—The Tribune's special from Indianapolis says the effect of the returns was nowhere more marked than in the committee rooms. The republicans were jubilant and democrats correspondingly blue. Senator Dorsey estimated that the state would give Porter 600 majority and Ben Harrison was equally confident.

The correspondent of the Louisville Courier-Journal puts the republican majority at 2000, unless the river counties give the democrats a boost. At midnight the democratic committee shut up its rooms and stopped receiving its returns.

THE VERY LATEST.

Republicans Claim Indiana by 10,000 and 8 out of 13 Congressmen.

INDIANAPOLIS, Oct. 13.—Official returns from thirty counties show [illegible] counties [illegible] republican [illegible]. There are 94 counties in the state. Later returns show still more favorably to the republicans. In the first congressional district Heilman, republican, is probably elected.

Clark county, complete, gives a democratic majority of 40, a democratic loss of 7[illegible]. The latest returns from the first congressional district indicate a very close contest, both parties claiming a victory.

[illegible] gives a democratic gain of 130; republican gain [illegible], republican gain 3[illegible].

[illegible], Oct. 13.—Third district democrat is defeated by [illegible].

CINCINNATI, Oct. 13.—Republican majority in Clinton county, 1618, a gain of 78. Fayette county republican majority 684, a gain of 4.

EVANSVILLE, Ind., Oct. 13.—Indications here point to the election of Kleiner, democrat, in this (the 1st) district.

Republicans claim 10,000 majority in Indiana and 8 of the 13 congressmen, while they have a large majority in the legislature insuring the next U. S. senator.

They May Lose their Money.

INDIANAPOLIS, Oct. 13.—Landers, English and McDonald sent out $1000 at midnight last night to bet on Landers' election.

Landers Gives Up.

INDIANAPOLIS, Oct. 13.—Landers concedes the election of Porter by about 4000 majority and that the legislature will probably be republican.

Democrats Give Up the Ship.

Republicans claim 9 out of 13 congressmen. Heilman, republican, 1st district, says he is elected. The democrats are entirely disheartened and wrecked. They refuse to claim anything and concede whatever the republicans claim without making any protest. They evidently give up the ship.

Ohio's Majority will Reach 25,000 to 30,000.

CHICAGO, Oct. 13.—Indications are that the republican majority in Ohio will reach 25,000 and may be 30,000. It is regarded as certain that the democrats elect only five congressmen from Ohio.

General Comment.

CHICAGO, Oct. 13.—All editorials so far as received agree that democrats have received a great and irreparable shock in the Indiana defeat. It is now generally conceded that defeat there is certain. The democrats still fully assert that with the solid south New York, New Jersey and Connecticut and possibly some of the Pacific coast states they may pull through yet and that they have odds in their favor still. The republicans consider that this talk is cheap buncombe and say that if they can carry Indiana, which is a democratic state, and can make gains of from 10,000 to 15,000 in Ohio, they can with ease carry New York and its satellite states, all of which are only doubtful and have recently shown the republican sentiment to be strong and growing. They say that the rush to get in on the winning side will now tell in their favor and that New York may give as high as 50,000 majority, while it is not at all improbable that several of the southern states may wheel into line. As to the fidelity of the Pacific coast states to the republican principles no doubt is entertained.

No wonder they Feel Disgusted.

CHICAGO, Oct. 13.—Reports come in from all over the country of meetings of rejoicing and congratulation over the heavy republican majorities in yesterday's elections. Republicans have plucked new heart and the democrats are disgusted and savage. Thousands of collars changed hands on the result, heavy odds having generally been given against a republican victory in Indiana and all pools having sold at a ratio of 50 to 80.

The Feeling at Washington.

WASHINGTON, Oct. 13.—The Post, democratic, concedes the election of Garfield if its previous editorial utterances mean anything, for it has distinctly declared for two weeks that if both Ohio and Indiana went republican they would give up the fight. John G. Thompson early in the campaign made the same declaration. Secretary Schurz expects 6 to 10 republican majority in the next house. Postmaster General Maynard says the magnitude of the victory of yesterday is fully appreciated here and Schurz to-day sent a telegram of congratulation to Garfield on his certain election. Chairman Hubbell now considers Virginia, North Carolina and Florida hopeful and attributes the result to the fear of democratic ascendency and its effect on business. Garfield, he said, would get 10,000 more votes in Ohio than the republican majority at this election. He is confident of New York, Maine, Connecticut and New Jersey. He does not believe there is a man who understands the political developments of the last two weeks who does not feel certain that New York is securely republican. Republicans must, however, keep right on gaining congressmen and rolling up majorities. Not the least pleasing result of the computations on the effects of the Indiana election as made at the republican headquarters is the prospective recovery of the control of the U. S. senate. That body is now, republicans 33, democrats 42, independents 1. It is now considered certain that one republican senator will be gained in each New York, Ohio, Pennsylvania, Connecticut, New Jersey and Indiana, and one lost in Mississippi, leaving 34 republicans in the senate after March 4th. The democrats will lose the foregoing six and gain one, leaving them 37. Should Davis of Illinois vote with the democrats and making a tie Arthur, as president of the senate, will have the deciding vote.

PRESS COMMENTS.

The Tribune says Nothing but Impossible Negligence can Prevent Garfield's Election.

NEW YORK, Oct. 13.—The Tribune says: Yesterday settled the presidential campaign. Nothing but over-confidence and impossible negligence can now prevent the election of Garfield. The October tide has sets strongly in the republican channel, and henceforth the whole drift is with us to the end. In Ohio the result is peculiarly gratifying. Four years ago with another and very popular Ohioan at the head of the ticket the October majority was only 6636. Ohio now responds to the virulent assaults upon Garfield which have formed the whole staple of the democratic canvass with a majority from 3 to [illegible] times as much as she gave to the popular Hayes. There is a lesson for believers in a campaign of slander that ought to last them a lifetime.

The Times Says the Republicans will Carry New York State Whether the City's Majority is against them or not.

The Times says: It is tolerably obvious that there is no democratic tidal wave this year. The careful reader of to-day's dispatches will be able to satisfy himself whether there is any wave at all, and if so, in what direction it is setting. An abnormally large majority in Ohio and probable republican plurality in Indiana, are calculated to give the republicans in this state new confidence in victory. The republican party propose to carry New York whether the majority against them in this city and in Brooklyn be 65,000 or 75,000, and the elections of yesterday certainly give them assurance that the party vote in these cities will be 20 per cent. greater than any vote which has ever been cast in a presidential year. Yesterday's election makes it more certain that the two democratic factions in the city, both of which have been waiting for a chance to assert their independence, will find new reason to fight over municipal spoils which are attainable rather than agree on an expectation of federal patronage which is more than ever beyond their reach.

The World Tries to be Hopeful.

NEW YORK, Oct. 13.—The World says: No one seems to doubt that the republicans have carried the Republican state of Ohio although upon the candidate who heads the ticket the democrats have made very considerable gains upon the vote of '76. Indiana, however, is a doubtful state, and a contest there is always close. The total vote this year, if we can infer anything whatever from returns thus far received, has been more than 450,000. The result will not apparently vary much from that of '76. It is to be noted, however, that straight democratic counties of the interior are still to be heard from, and it is entirely within possibilities that these counties may not only neutralize but so far overcome reported republican gains as to swell Landers' majority to figures much greater than those reached by Williams in '76, although Landers has unquestionably run behind his ticket, since he is not enough of a greenbacker to attract any considerable following from soft money men.

The Sun Asks: "Can Hancock Carry New York?"

The Sun says: It is probable that the Garfield party has carried Garfield's own state. The figures from Indiana up to this morning are not such as to give a detailed result of the election in that state, but the first of the returns to reach us are from the larger republican cities, while the vote of the counties in which the heaviest democratic majorities were expected is not yet turned in. The Sun asks: Can Hancock carry New York?

The Herald Declares the Democrats Substantially Beaten—The Effect on New York.

NEW YORK, Oct. 13.—The Herald says: The vote is so close in both Ohio and Indiana that complete returns will not be obtainable for a day or two, but the details at hand show such republican gains in both states as denote a decisive democratic defeat. In Ohio Hamilton Co., the democratic stronghold, has gone republican and the republicans claim a plurality of 20,000 on the state ticket and a heavy gain in congressmen. Indiana is in doubt. Both parties claim it as we go to press, but it is apparent that even if the democrats carry it, it will be by no such majority as the 14,000 they had two years ago. That is to say the democrats are substantially beaten. If it shall turn out that they have elected their governor by a reduced majority this will be but small comfort for them considering the result in Ohio. They hoped and looked for a vote which should show the other states that the set of the tide was against the republicans, as they have acknowledged that their chief expectations of success depended in November [illegible] but the set of the tide appears to be against themselves. If it shall turn out that they have lost Indiana as well as Ohio [illegible] the correct impression will be that this will substantially decide the presidential contest and makes Gen. Garfield the next president.

The result of yesterday's [illegible] on the democratic union in this state, in which democratic success in the state depends very doubtful. In the general anxiety the democratic factions here will look only to their own [illegible], [illegible] than they have been on previous occasions to take advantage of the spirit among their opponents. We may look therefore for a new alliance of one or the other democratic factions with the republicans and possibly a repetition of Mayor Cooper's administration. [illegible] reports from Ohio are absolutely misleading, the republicans have gained no less than six congressmen, which would have an extremely important bearing in the political complexion of the next house.

Sheriff Kelty of Yamhill county took a Chinaman to Salem Monday sentenced to one year in the penitentiary, for larceny from the residence of James Hendricks.

OREGON LEGISLATURE.

ELEVENTH BIENNIAL SESSION

SPECIALLY REPORTED AND TELEGRAPHED TO THE OREGONIAN.

Senate.

SALEM, Oct. 13.

The senate was called to order at 9 A. M. by the President.

Roll was called, quorum present.

Journal of yesterday's proceedings was read and approved.

The substitute S. J. R. 6 for S. J. R. 3 referring to the [illegible] assessment law and to create a joint committee to revise existing assessment law, [illegible] was taken up.

Hendricks offered an amendment by naming commissioners as follows: Cochran of Lane and Apperson of Clackamas.

Cochran was reluctant about receiving such an arduous duty, although he was decidedly in favor of some change in the assessment laws.

Starkweather was opposed to the resolution and the amendment too because it calls for additional compensation and also on account of the contradiction which this calls for a commission to sit thirty days to frame one bill while the legislature sits only for forty days and drafts over 100 bills.

Fulton opposed it because it was unconstitutional and called into existence an office and the law provided that legislators should receive only $3 a day and [illegible] the session should be [illegible] forty days. He thought that the senate [illegible] the expenses of the commission [illegible] days could be [illegible] the law which provided that members of the legislature should only receive $3 for their services during the session.

Bilyeu read from the constitution. He contended that we have the same authority to appoint a commission at this time as when we appointed a committee to investigate the insane asylum or examine the affairs of the [illegible] commissioners.

There is no difference between this appointment and the others I have just named. The [illegible], whose names are mentioned, are elected [illegible] and hold their offices as legislators. They are eligible to this position, for it is in no sense an office, but merely a committee to examine into the laws.

Simon opposed the amendment because it infringed on the constitution.

Cochran was in favor of the creation of a board of equalization. It was important and most necessary for the people of this state. We have always been running at random regarding revenues of the state. It should be the duty of the secretary of state to make a levy and have it sent to each county of the state. Some system should be adopted whereby the demands for the state government might be met to a dollar and leave no surplus lying idle in the treasury. Revenues should come in by first time as instead of requiring that the accounts to be in the treasury in February, perhaps not to be used for a year.

For the drafting of proper revenue laws a commission should have access to a finer library than the one owned by the state.

Simon offered the following amendment: three from the house and two to be appointed by the governor. The amendment was lost.

Smith moved that the word "commission" be stricken out and the word "committee" be inserted, adopted.

Burch moved to lay on the table, lost.

Smith—I believe this commission will do the state good, although I think that precinct officers would be a greater improvement than even the board of equalization, and therefore in favor of the amendment—striking out the words that members of said commission shall receive for their actual services $5 per day.

Smith moved to amend by inserting $3 per day.

Simon rose to a point of order, inquiring whether the amendment was in order for his amendment provided that no compensation should be given said commissioners except for actual expenses. I know this legislature are all economists, and I am sure that none of them will refuse to act if they are called upon to assume the duties of this position.

Apperson said it requires careful consideration and the assessment laws need revision. I heartily concur in the proposition of making a state board of equalization.

Gates—If we are going to create this committee we ought to pay them. We are putting duties on them which belongs to the legislature. We have no right to provide for the appointment of commissioners without also paying them for their services. We can not certainly require competent intelligent men to act unless they receive a reasonable compensation. Members of said committee shall receive $3 per day for actual service and for each twenty miles going to and from the capital.

McConnell—I am opposed to the adoption of the substitute. It matters not whether the office created be called a commission or a committee. If we have the right to create a commission consisting of members of this legislature at a salary of $5 per diem, we have the same right to make that salary $10. If we have a right to say that said committee or commission shall sit thirty days we have the same right to say it shall sit until the next legislature convenes. If we have a right to place five members upon this committee we have a right to create places for all the members. Mr. President I think this is a dangerous innovation on the rights of the people as guarded by the constitution, and shall vote against it.

Humphrey—Did not think a legislator could be eligible to this office or if they are then they can not be legislators. It is unlawful to hold two offices.

Burch moved to lay on the table, lost.

Smith's amendment was adopted.

Simon's amendment as amended by Smith was adopted.

Substitute S. J. R. 6, substitute for S. J. R. 3 as amended, was lost.

The original resolution S. J. R. 3, was thereupon taken up.

Knight moved to adopt the resolution.

Lee asked that the clerk read the resolution introduced by Simon, on a vote the resolution passed.

S. J. R. 3—Resolved by the senate, house concurring, that his excellency the Governor be and he is hereby authorized to appoint a commission to consist of two members taken from different vocations in life, citizens of Oregon whose duty it shall be to revise the assessment laws of this state and to submit to the next legislative assembly the result of their labors. Such commission shall prepare a bill which shall be a substitute for the existing revenue laws of the state, if approved and passed by said legislative assembly. The members of said commission shall meet at the capital of the state at such time as the governor may appoint and then and there organize by the election of one of their members as chairman and the appointment of a clerk.

No member of such commission shall receive any compensation except their actual travelling expenses incurred in going to and from the capital while engaged upon such commission.

The secretary of state shall provide a place for the meeting of said commission and furnish them with light, fuel and stationery.

On motion the substitute bill that was read a second time.

President Hirsch left the chair which was temporarily filled by Apperson.

Hirsch spoke in favor of the substitute explaining that it was virtually the same as the old law. It gives a majority of the creditors privilege to elect an assignee. If the assignee does not suit the majority of creditors of equal claims why then the circuit judge may appoint such an assignee as he may believe to be for the best interests of the creditors.

Cochran inquired why the original bill was not amended instead of making another.

Simon said the bill was so changed that it was impossible to amend the original bill.

Haines spoke in favor of the bill, liked the provisions of it in allowing creditors to elect an assignee in thirty days.

Knight, Gates and Clow opposed the bill.

On motion of Simon the bill was ordered engrossed and passed to third reading.

Cochran moved that the committee on commerce be requested to return back to the senate S. B. 82, to provide interchange of traffic by common carriers.

Fulton moved to indefinitely postpone.

The chairman of the committee could not understand why the gentleman from Lane should cast such unjust insinuations about the bill being pocketed or muzzled. Just as soon as we come to that bill it will be reported.

Fulton repelled the dark suspicions cast upon the committee by the gentleman from Lane. It was not to be supposed that they would treat it unfairly. I am opposed to the bill, but this will not influence my action as a member of the committee.

The president ruled the motion of Cochran out of order.

An appeal was taken from the decision of the chair. On a vote the decision of the chair was sustained.

Siglin moved that S. B. 21 to license aliens to do business be reported back by the committee on federal relations, and that they be discharged from further consideration of that bill. He said that he made this motion because he had no desire to have his bill muzzled or pocketed.

Colvig moved to lay on the table.

Motion to suspend the rules was lost and the motion to lay on the table carried.

JUDGE WILLIAMS AT SALEM.

A VAST AUDIENCE AND AN ABLE SPEECH.

A Review of the Political Situation—The Claims of the Republican Party on the Confidence of the People.

SALEM, Oct 30th, 1880.

By far the largest audience ever assembled in Salem gathered last evening to hear Hon. Geo. H. Williams. There was an immense torchlight procession and great numbers of people from all parts of the country participated. Judge Williams, on appearing on the platform was greeted with prolonged applause. Following is a synopsis of his speech:

LADIES AND GENTLEMEN:—Every presidential election presents practical questions which require to be discussed and examined. Years ago the republican party came into power. You all know the condition of the country when it assumed the reins of government. The tempestuous period which followed the inauguration of Abraham Lincoln is perhaps remembered by many. The vividness of that picture is such as to be indelibly transcribed in the every color in our memories. The country was at that time agitated by the most momentous questions, both important to our country and to the whole civilized world; for certainly the union of this magnificent republic means the amelioration and improvement of the whole civilized world. Our country was disturbed in its very essence by the actions of the leaders of the then democratic party. There are in the republican party certain principles and tendencies which are recognized as its chief characteristics. No one can doubt the superb statesmanship of its leaders, who have so quietly harmonized all the discordant elements. Indeed, so unconsciously has this been effected that the transformation has not received the importance which is due to this grand achievement. How wonderful is the change. The smoke of the battlefield has dissolved into sweet peace. The frightful crime which stains the history of the democratic party, which now seeks by the suffrage of the people to assume control of this government, is too recent to allow the people to hazard their beauteous and most prosperous nation to be guided by their hands. Why should you seek a change? Why should you transfer all the progress and material perfection accomplished during the republican administration to this democratic party? This would be a revolution too radical for any fair minded man to favor. Certainly it must be supposed that every intelligent man is influenced by reasonable prospects of some advantage and improvement accruing to the country before he would desire a change.

Are the laws unjustly or corruptly administered? Is there any extravagance going on? Is the credit of our government below par like it was years ago when the democracy was in the supremacy?

Is our capital without enterprise or labor without employment? No, the reverse of all this is true: prosperity and peace reigns everywhere. Is not the republican the party that has instituted these glorious changes? No doubt many of you have no direct interest politically in the present campaign, for you are not office holders, but good sensible citizens. You have no interest except an earnest desire to have a judicious taxation established on true economic principles. You want the expenditures of the public money to be intrusted in the hands of an honest and faithful party. The happiness of the people and prosperity of the country demands this. Such evidences will everywhere greet your eye, seek where you may, and from such prosperity cannot you learn a lesson. Go into the middle states, where the day is made dark by the smoke from the numberless new industries and the night made luminous by the furnace fires.

Every business man desires to have this state continue. Every intelligent man is in favor of continuing the present administrative policy, which has produced such a happy result. If he desires changes he must vote for new men, new systems, new policies, which for aught he may know may prove disastrous for the welfare of our citizens and dangerous to the existing institutions of our country. Let me say this—that the policy of this country is not what Garfield or Hancock says, it does not make a hair's difference what the campaign orators may present to you about them. Do not be surprised at the false calumnies heaped upon these men during this contest. But now which of the different great questions of the two parties are the people to look for that unexampled prosperity and peace which smiles over our country at the present time? How are these questions to be determined? You cannot tell what the republicans or democrats have done, but you can tell what each party would do. If the republicans are entrusted with the administration of the government no one can object to reason and prosperity. This is why all ordinary affairs are predicated.

When you want to hire a man you look for his antecedents. If he is dishonest and unprincipled you withhold your confidence. Apply this rule to the political parties and I am confident that every one will vote the republican ticket. Allow me to take you over these last twelve years and candidly compare the history and influence of this republican party. Let your conscience decide which of these two parties are devoted to human freedom, justice, equal rights to all—the primary rights of all governments. Is there any fair, intelligent minded man who can hesitate to give an answer favorable to the republican party? I am not here to say that the democratic party is the secession party, nor do I accuse a man of being dishonest or unfair because he belongs to the democracy. I believe the members of this party are, many of them, upright men, but their party has ever been laboring to establish and declare the doctrine of state rights a supreme principle. It is dangerous to the integrity of the government and inimical to the best interests of every patriotic American.

This democracy declared war against the federal union. [illegible] the southern part. [illegible] this party after having consulted this doctrine [illegible] this country [illegible]. Are you willing to [illegible] which may happen in the [illegible]. Consider well the present condition of the country and then [illegible] impudent step. Would it not jeopardize the result of these last twelve years of unexampled prosperity and improvement?

[illegible] democrats have 138 votes from the solid south. From the north they hardly claim more than [illegible] 50 electoral votes. With these [illegible] and the remainder they expect to control the [illegible].

At present in the United States senate out of [illegible] senators 30 of them are southern men. Out of [illegible] members in the [illegible] representatives [illegible] the south. The others in the government stand in [illegible] of the [illegible], the democrats in power [illegible] distinguished for their service in the destruction of the nation. They do maintain opinions as to the nature of the federal union that are dangerous and inimical to the welfare of the people. The controversy between national supremacy and state rights is now being agitated by them. The theory of state sovereignty was defeated before the smoke of the battlefield. But it has again arisen. This party affirms state rights now; the question is whether it is the same as it was before the rebellion. Is there any conclusive evidence that it is changed? Nullification and secession are the inevitable links which chain up on one side the democratic party, on the other the prostrate union. Have the southern people a purpose in the result of the war. It is impulsive rather than [illegible]. It is said that "a man convinced against his will remains convinced still." Those 23 brigadiers entertain the same thought. I defy any people to declare that they have changed their peculiarities. These southerners flaunt the "holy and sacred cause." It is a fact they still entertain the same views so dangerous to the peace of the people. When they were educated as a people they were impregnated with southern ideas. They were instilled and indoctrinated into them from their earliest moments. So strong has this principle pervaded them that they [illegible] out and sincerely lay down their lives on the battlefield. It is impossible to change these things. History teaches that physical discomfiture does not change convictions. These convictions are rather intensified. The point I desire to make is, what these people do think of the federal government. These people although they accepted the results of the war, have not changed their opinions relative to the government. They still persist in advocating state rights, which is inimical and detrimental to every state in the union. They are clamoring for state rights so paramount is their desire that they would shatter to pieces, disgrace, belittle and cripple the whole state government in their insanity.

What does this outgrowth of state rights mean? Is that the road to the perpetuity of our country? To give the government to the party and to those aristocrats who fought against it while attempting the dissolution of the union, encompassing the country in dangerous disasters and only being defeated in their dread purpose by the valiant soldiers of the union army. The northern wing of the democracy is controlled by the south. When the democratic party found certain laws protecting federal elections they became odious to them because they did not [illegible] purity of election. Democrats repealed this law by adding an appropriation and then adjourned without making the appropriation. This was actually revolution. It shows the disposition of this grand old party. When the president and a republican house of representatives desired an appropriation the democratic senate effectually destroyed the federal law by refusing to pass on them. These circumstances exhibited tend to show how this same spirit has developed since the rebellion. They are alive now and will never cease to live. Every opportunity was taken to thwart the laws and it ever appeared in that same despicable, horrible form. These are illustrations. The question is whether the people will favor such desperate, despicable practices, in the house of representatives.

During the collection of revenue taxes through the south, twenty four officers were killed and fifty nine wounded in attempting to enforce the revenue laws. From this it will be seen that there always arises a feeling which pervades every southerner that any interference of the federal government is an infringement of the doctrine of state rights. All circumstances and facts have shown this spirit of hostility against the very existence of the federal government. And would now reflect a moment before [illegible] this country in their hands. By transferring all power must be understood to mean judicial, military, executive and legislative. To obtain entire control of every department and every office, the democrats are now meditating a change in the supreme court by making the number [illegible], adding 12 additional justices. They certainly will appoint them in case Hancock is elected. At present the supreme bench is composed of nine members. Now is it wise, expedient or necessary? It is said that it is necessary because to conciliate the south the democrats must and did also that the people want an honest government. These are the two reasons advanced by their leaders.

At present the south presents one broad monotonous, unbroken waste of state rights. Conciliation will therefore go on till the sword is broken and the northern people will be again hewers of wood and drawers of water. Every one wonders at the solid south—sixteen states leagued together presenting a compact, impregnable front, an imposing phalanx, determined and united in its purpose that the south shall be the governing power of this land. When any man reviews this sectional question it is hard to believe that at this particular time, when the people are enjoying everything in life, it is rather unsafe, and inexpedient and impolitic to make them "our governors."

After reviewing the statement made by democrats that they fought and preserved the union, the gentleman read a letter from THE OREGONIAN written by a prominent democrat to the editor of the Standard, in which he accuses the democrats of robbing and plundering Oregon for the last six years. Over $500,000,000 in revenue taxes have been collected by the republicans without the loss of a single cent.

The Hayes administration was examined into and eulogized for the financial success of the same.

In answer to the insinuations made by Democratic speakers about his own private character he said: "I can convince any fair minded man of the falsity of these charges if it is deemed necessary." In regard to this subject I feel much like a hotel clerk in San Francisco who was accosted by an Australian:

"It's very dusty in your city, sir."

"Oh yes, very dusty."

"Does it affect you any?"

"Oh yes, very much."

"Is your throat sore?"

"Oh no."

"Are your eyes sore?"

"Oh no."

"Your ears or probably your hair?"

"No, the dust does not bother me in that way."

"Well now, I say, how does it hurt you?"

"Well my friend," said the hotel clerk, solemnly, "the dust affects me in this way: there are about 50 damned fools, every being, who come in and say, 'It is very dusty.'" [Great laughter.] What makes the prosperity of a country? Public confidence is the secret. The federal government resumed specie payment, confidence came in in small rivulets, becoming stronger, larger, from business to business, man to man, until this splendid superstructure was at last constructed. Public confidence grew up under the fostering care of the republican government, on a sound, permanent financial basis. Confidence restored a legitimate profit, and business men invested in enterprises. When confidence is shaken capital seeks the unlocked vaults to escape calamities and to be used for the exclusive benefit of the capitalists.

If the democrats get in power, may we not apprehend that confidence will relapse into a state of distrust, doubt and fear? When this comes, look out for a change in the condition of the country. In the southern states over $100,000,000 worth of debts have been repudiated by the states themselves. These debts were created before the war, and not since then. Now, suppose the democrats get into power, may they not repudiate the debt of the United States? It is for our intelligent people to say whether they desire them. If the people believe that a party that has distinguished itself for repudiating hundreds of millions of dollars to the utter prostration and dissolution of the country, if the people think this party can control monetary affairs which are just as sensitive to legislation as a sensitive plant is to the hand of man. Do the people desire a change? Let well enough alone and adopt some philosophy and endure the ills we have than fly to others that we know not of. If this government changes hands you know that 130,000 officers, tried and experienced would be discharged for new men, for the democrats believe that "to the victor belongs the spoils."

In Washington 77 union soldiers who fought for this country were lately discharged to make room for 90 men who fought for the destruction of the union. Each candidate represents the principles of his party. The merits or demerits of the candidates would not be discussed, but rather the party who nominates the candidate. After a very interesting comparison of Garfield's character from his earliest years to his manhood to Hancock from a cadet to a military commander, the speaker closed his eloquent remarks.

Hon. Rufus Mallory was called for and made a few appropriate remarks, after which the band struck up some music and the Garfield and Arthur club marched from the theater.

IT SEEMS IMPOSSIBLE.

That a remedy made of such common, simple plants as Hops, Buchu, Mandrake, Dandelion, &c., should make so many and such marvelous and wonderful cures as Hop Bitters do, but when old and young, rich and poor, Pastor and Doctor, Lawyer and Editor, all testify to having been cured by them, you must believe and try them yourself, and doubt no longer. BEWARE OF IT.

Oct — 1880

Mr. Clark, Sir:—If we are to have another republican president I shall have no use for a democratic paper, so you can stop my paper.

TO THE EDITOR OF THE OREGONIAN:

The above was copied from a postal card which lately passed through the hands of the writer hereof, on its way to the post office and is, I dare say, a fair sample of hundreds that will ere long reach the same destination, or at any rate as fast as present subscription payments expire.

I have noticed with surprise and sorrow that many good sound and intelligent republicans are contributing their money and their influence to sustain the most clannish democratic partisan paper in Oregon because it is professedly devoted to the interests of farmers and contains a certain amount of agricultural matter.

A journal professedly "neutral in politics and exclusively devoted to farming news," having once gained the confidence of a portion of the farming public and then using its position and influence by sly innuendoes and quiet flings, to propagate distrust and prejudice against one party and its candidates, and praises of the other party, has four fold more power for evil with men too busy to look closely after politics than an openly partisan paper can have.

The low flings and blackguardism of the average democratic paper is taken as a matter of course and proves an antidote to the poison contained in its pages at least with the better class of readers, but such a paper as I have spoken of, is a masked battery against which no preparation for defense is made, and unsuspecting republicans are liable to be swept away from their moorings before they think of danger.

Let all republican farmers then bear in mind that the Willamette Farmer is the most valuable paper to the democratic party published in Oregon and its farming character is only its mask.

THE GRAND RESULT

The result of elections which almost overwhelms republicans themselves with surprise at the magnitude of their victory completely crushes democratic hopes It is a result which makes sure the election of Garfield and Arthur and not only this but it leads the way to annihilation of the democratic party as now constituted The strength of that party is based on the remorseless despotism of the solid south, and the solid south, made solid by violence and fraud is a revolt against the fundamental principles of American citizenship and government Again as in 1860 it produces a solid north A great political wrong meets with its just rebuke now again, as in former times It is an event which once more shows that the people have in them a principle which may always be trusted to assert itself against any invasion of the great fundamental doctrines of equal rights and representative government

With a fatuity which seems almost the result of the inexorable commands of an evil fate the democratic party persists in tying itself to the policy of the unprogressive and reactionary south This puts that party in the attitude of a protester against principles which the northern people have decreed are necessary to national well-being At every step for thirty years it has contended for the southern policy Its affinity for the lower form of political civilization which rules the south is natural perhaps, but surely fatal. Warnings it has had enough, but still it refuses to step up to the higher plane. Its character forms the baleful destiny that controls it.

This result in Ohio and Indiana completely breaks the back of the democratic campaign The fight, heretofore vigorous and aggressive on their part, is henceforward utterly without hope. From this time forward there will only be a mere show of fight to save appearances. The great contest is over. It is now extremely probable that the solid south will partially break up even before the November election. It has nothing further to gain by its extreme and arbitrary course. It must surrender its political crusade against the rights of citizens, against the constitutional amendments and against the principles of national sovereignty, as it surrendered its arms at Appomattox. Justice shall triumph, and the assumption of state supremacy over national authority must again learn its lesson

As the result of these elections will paralyze the confederate-democratic alliance, so it will inspire the republicans with renewed energy and larger courage. It will be amusing now to witness the precipitation with which men of easy political principles who had persuaded themselves that the time was now ripe for "change" will now be tumbling over each other, neck and heels, to get back into the republican ranks. They now will again see possibilities of good in the old party to which they were strangely blinded by a mirage which had to their defective vision the appearance of a coming democratic triumph. There will be no more of that glamour now. Garfield will be president and national principles will be sustained.

PRIZES FOR INDUSTRY AND ABILITY

A feature which the general government has caused to be adopted in certain departments of the service, namely, that of keeping at headquarters a registry of the special aptitudes of officers and the special departments which, in case of exigency, each would be entitled to fill is rightly spoken of as a capitally good one The case of our now famous Oregon youth, Lieut Fred Schwatka, is mentioned as one that illustrates the benefits of the system He was perfectly familiar with the literature of polar explorations and the results of previous expeditions, he knew exactly what he proposed to do and how to do it, his heart and mind were in the generous undertaking, and among all the officers of the army he was probably the man best fitted for the arduous duty of making a 3000 mile journey over Arctic ice and snow Every year the tendency toward specialties in the military profession, as in other callings, is becoming more developed and defined. The modern officer must be educated not only in the general technics of his profession, but if he would win the awards of honor he must improve himself by research in special lines of study Not only extended post graduate study in purely military subjects, as gunnery, equipment, subsistence, tactical evolution, military law and its relation to the civil power, military history, the condition of foreign armies, but also correlated scientific topics like climatology, botany, geology, zoology, ethnology, physical geography, will come in good place, and afford a wide and inviting field for the ambitious officer. Nor will linguistic accomplishments come amiss when the department has occasion to make inquiry for an officer thoroughly proficient in Spanish French, German, Russian, Italian, or the Indian languages. Such a registry of special aptitude and ability among army officers will not only enable the war department to put its hand on the right man required for any special detail, but cannot fail also to act as a powerful incentive to individual exertion among the line and staff of the army. The prizes of the future will undoubtedly be for the educated officers, skilled in their profession and cultivated by wide reading and studious habits.

We hear that Judge J H Reed of Portland last Saturday made a speech to the workingmen at Cascade Locks. "Here you are," said he working for $1 75 per day. Vote the democratic ticket now, elect Hancock and you will get from $3 to $5 per day, as you used to do in the good old democratic times. Don't allow the radicals to bulldose you This thing is all going to change in March and if you stay with the democratic party it will stand by you" And the judge skinned his eyeballs with pious glances upwards just as if he were the original proprietor of political and moral truth and were selling it by street auction in the original packages.

The elections in Ohio and Indiana produce a result which makes a republican majority of 50 000 or more in New York among the probabilities. That the republicans will carry the great empire state is now certain. The only question is as to the magnitude of the majority The New York *Herald*, according to a dispatch of to day, explains the conditions which will contribute to an overwhelming republican triumph in New York. New Jersey and Connecticut will go the same way The charter election in Newark, showing a republican majority of 2500, indicates what New Jersey is going to do.

The news yesterday was a terrible disappointment to our democratic brethren. They were utterly bewildered and demoralized by it There was no meeting of the Hancock clubs, and doubtless we shall soon see an announcement of a "special and peremptory sale" to dispose of their effects.

Hon Geo H Williams is having the largest audiences of any speaker in the state and is fully sustaining his old reputation for an ability unequaled among the public men of Oregon. To day he goes to Astoria, where he will speak this evening

It might help a great party in the present emergency if some democratic statesman would rise and offer a remark about "De Golyer" Hitherto this has been deemed extremely effective.

With the prospect ahead it is presumed that the confederate democracy will not now want to reorganize the supreme court in the the interest of the solid south and rebel claims

We think we heard some remark about the boys with the blues So the boys in blue have been sneeringly called But who are the boys with the blues now?

To the democratic managers it now begins to be doubtful whether they are likely to get an equivalent for their enormous expenditure in Maine Ohio and Indiana

On the whole the brigadiers will now think better of it They will not now wipe out the last vestige of your war legislation?

Indiana is a bigger state than Maine to say nothing about Ohio to boot But Garfield will have Maine also by 20 000 majority

This is a Nation with a big N And not a big N of a fount of small letter either It is an N of nothing less than fifty line pica

Gen Hancock will have no strife with his party He will not be called on to veto any bills for payment of rebel claims

THURSDAY MORNING, OCT 14, 1880.

CITY.

DASTARDLY OUTRAGE.—Early yesterday evening a drunken halfbreed, who answers to the name of Joe Obershaw, made a most dastardly assault on the person of a little girl aged 10 years, daughter of Mrs Allen, and attempted to outrage her. The outrage was perpetrated in the southern end of the city, some distance beyond the First street bridge. Obershaw induced the little girl to go into some brush near the road, when he made the assault. The wretch struck the child several blows about the face and choked her severely. Her outcries brought assistance. Obershaw attempted to escape, but was captured by Officer Elwanger, who brought him to the city jail. On the way down, Obershaw admitted to Elwanger that he had attempted to outrage the child. As the grand jury is in session the matter will be referred to that body directly.

ARMS FRACTURED.—Yesterday afternoon a little son of Mrs. Streibig, who resides on Alder street between Sixth and Seventh, met with a very serious accident. The lad was playing with some other boys on an old shed at the corner of Sixth and Alder streets, when he lost his balance and fell. The distance was about twelve feet. The boy struck on his hands with such violence that the bones of both his arms just above the wrists were badly fractured. Drs. Wells and Henry Jones were called and adjusted the broken bones. At last accounts the lad was resting comfortably.

MESSENGER BOYS.—The following are the names and numbers of the messenger boys now employed at the office of the Western Union Telegraph Company: Chas. W. Stinger, chief messenger; Frank Hennessy, messenger No 1; Harry Brannan, messenger No. 2; Lollais Killdoff, messenger No. 3; John Crumbie, messenger No. 4; John Buckley, messenger No. 5.

A GOOD WORD.—Mrs. Anna Nessah, who formerly resided in this state, has just renewed her subscription for THE OREGONIAN. She writes from New Glarus, Green county, Wisconsin: "Being an Oregonian, I cannot be without your paper, and if it does not make its appearance every week, I feel as though I had lost a friend."

BABY PLANT.—Mr. L. G. Pfunder has at his floral gardens one of those rare botanical curiosities—a baby plant. Last Sunday the plant developed six full blossoms. The plant is something very remarkable in the floral line and well worth inspection. All who desire to see this plant can do so by calling at Mr. Pfunder's gardens.

STEAM BOILERS.—Smith Bros. & Watson, of this city, are constructing two large steam boilers for the fog signal machinery of Tillamook rock lighthouse. With favorable weather, it is anticipated that the light will be exhibited and the fog signal in operation about Jan. 1st.

THE DREDGE.—The U. S. dredge is now engaged in dredging at the mouth of the Willamette. The river is now at its average low-water stage, there being only fifteen feet in the channel at that point. The river is now two feet above extreme low water.

POLITICAL SPEAKING.—Dr. J. W. Watts will address the citizens of the following places on the political questions of the day: Hillsboro, Oct. 15, 7 P. M.; McMinnville, 16th, 7 P. M.; Sheridan, 18th, 7 P. M.; Lafayette, 19th, 7 P. M.

REGULAR MEETING.—There will be a regular meeting of the board of delegates of the Portland fire department at the police court rooms this (Thursday) evening at 7:30 o'clock. A full attendance is desired.

POLITICAL.—J. C. Moreland, Esq., will address the citizens of Tualatin precinct, Clackamas county, at Meridian schoolhouse this (Thursday) evening on the political issues of the day.

OMITTED.—Owing to the session of the State Sunday School convention at the Presbyterian church, there will be no prayer meeting to-night at the Congregational church.

PORTLAND'S GREAT FAIR.

SIXTH DAY.

Large attendance from Valley and River Towns—More about the Ladies' Handiwork—Notes.

The attendance at the Mechanic's Fair was large last night notwithstanding the slight sprinkling rain. One noticeable feature of the visitors was that the larger portion were from the country, which is attested by the fact that there were upwards of five hundred coupon tickets received at the door, and from the number of arrivals by the trains and boats yesterday which were upwards of eight hundred. There were many visitors in the city who did not take occasion to attend on the first day of their stay, and doubtless a greater portion of this reserve corps will be present this evening. Among the gems in to-night's concert programme are: "Fine Danube waltz, march from Tannhauser, selections from 'Fra Diavolo' and 'The Heavens are Telling.'"

BIRDSEYE VIEW OF PORTLAND.

There is exhibited at J. K. Gill & Co's stand at the head of the southeast stair case, a birdseye sketch of Portland and East Portland, which will be issued as a lithograph in a style similar to those of Olympia, Seattle and New Tacoma, which are well known. The view is taken from Robinson's Hill, and in the back ground of mountains, Mt. St. Helens, Mt. Adams and Mt. Hood show grandly. Every block in the city is distinctly delineated, and every prominent building can be recognized at a glance. In fact every building in the city is plainly shown, as well as every street. The scene on the Willamette is especially fine. The price of the lithograph is $2 for single copies, and reduced rates for quantities when purchasers desire more than one to send to eastern friends. Subscriptions are taken at Gill & Co.'s stand.

GRAND REPUBLICAN RALLY.

Indiana and Ohio have Spoken—Torchlight Procession—Speaking, Music and Fireworks.

The republicans of Portland are making very extensive preparations to hold a grand rally and torchlight procession on Saturday evening, October 16th. This will be in honor of the recent republican victories achieved in Indiana and Ohio.

Invitations have been extended to various republican clubs up the valley at the different towns to attend the demonstration. Arrangements have been effected with the railroad companies on both sides of the river by which those who desire to attend the rally will be passed over the lines at half-fare rates.

It is proposed to make this the largest and most enthusiastic republican demonstration which has taken place in Portland for years. Every republican is expected to turn out and carry a torch.

The committee will spare no effort in making it the biggest political event of the campaign.

There will be music, fireworks and a general illumination. After parading through the principal streets of the city, the procession will halt at some convenient and central point, where speeches will be delivered by a number of prominent speakers. Full particulars hereafter.

NEWS NOTES FROM DAYTON.

[SPECIAL CORRESPONDENCE OF THE OREGONIAN.]

DAYTON, Oct. 12, 1880.

Farmers are busy seeding; consequently business is dull.

Dayton is in telegraphic connection with Dallas, Sheridan, and if not, soon will be with Silverton.

Mr. Green, an estimable citizen of this place, is very ill. There are but slight hopes of his recovery.

Dayton is incorporated. This will enable her better to preserve order and work more directly for her own interests.

Politically our enterprising town is keeping pace with her neighbors. We do not know as either party have organized clubs yet. All are anxiously waiting reports from Ohio and Indiana to-morrow.

School is full and in successful operation under the supervision of Prof. Elliott. Miss Carrie Watson is the very efficient assistant. The school building has been repaired and put in proper condition.

Capt. Edwards, superintendent of the narrow gauge line, was very unfortunate a few days since, as his limb was crushed between the bumpers of two flat cars. It is thought by the attending physician that his limb can be saved. He is doing as well as could be expected.

SABBATH SCHOOL CONVENTION.

The eighth Sunday school convention of Oregon and Washington assembled in the first Presbyterian church of Portland, Dr. Lindsley pastor, at 10 o'clock yesterday morning, and was temporarily presided over by Dr. G. H. Atkinson.

Following a brief singing exercise the president, E. J. Northrup, was called to the chair.

Devotional exercises were led by Deacon D. W. Williams, after which credentials of delegates were received.

Officers for the ensuing year were elected as follows: President, Dexter H. Horton, of Seattle, W. T.; vice president, E. J. Northrup; recording secretary, F. S. Akin; statistical secretary, Rev. A. Bowers, of Oregon City; treasurer, D. W. Williams.

On motion Chaplain Stubbs and Mrs. M. E. Stubbs were elected delegates from the Portland Seamen's Bethel Sabbath school.

Rev. J. H. Acton was appointed to report for the press.

Among the veteran Sabbath school workers Mr. Powers, of Upper Astoria, was present, and was invited to a seat with the delegates.

Dr. A. L. Lindsley's address on "The Object of this Convention" is pronounced a gem, profound in thought and deeply spiritual.

Mrs. M. E. Stubbs offered a very earnest prayer for the descent of the Holy Spirit.

The convention were then invited to the vestry to enjoy a lunch prepared by the ladies of the church.

Afternoon Session.

Opening prayer by Mr. Whitworth of Seattle.

Rev. A. S. Coats, Mr. Whitworth and H. H. Northup were appointed a committee to arrange time and place for the next annual meeting.

"The Teacher's Inner Life," was the subject of a very earnest and deeply fervent extemporaneous address by Mrs. Dr. C. B. Smith, of East Portland.

Following this cordially welcomed, faithful talk, prayers were offered by W. Wadhams and Rev. J. N. Denison.

Dr. G. H. Atkinson presented a series of notes or jottings, giving in outline the doings and experiences of the executive committee in relation to fraternizing bodies, and the arrangement for the present convention, after which, in the absence of Rev. Mr. Thompson, of Olympia, he opened the discussion on this subject: "The Bible the Food of the Soul."

A paper from Mr. E. Brooks, of the Dalles was then read by Mr. W. Wadhams on "Sunday school music." The residue of the afternoon was devoted to a free and very interesting discussion of these two subjects, to the general satisfaction and enjoyment of the convention. Many valuable suggestions were thrown out by Sabbath school superintendents and others. The session was one of special interest to the ladies present, who participated with a freedom that was quite refreshing.

The secretary read the names of 93 delegates present, of these 62 were representatives of the churches in this city and East Portland.

At 5 P. M., the meeting adjourned, to meet at 7:30 in the evening, at which time Rev. J. N. Denison, of Salem, will present a paper entitled, "A hundred years of Sabbath school work," and Prof. T. S. Warren, will give his address on "The History of the Bible."

HONORS DECLINED.

A little merriment was occasioned in the S. S. convention at the first session by gentlemen nominated as officers declining the honor. Among the members were Mr. J. K. Gill, Bower, Denison and Coats. For a time it looked as if the convention would have to wait for new arrivals or import some suitable material for the official annual machinery. Some of the elections finally secured were over the protests of the elected.

It was stated incidentally in Dr. Lindsley's address that there are 7,500,000 Sabbath school children in the schools of this country.

Evening Session.

The papers read by Rev. J. N. Dennison and Prof. R. S. Warren were very instructive, and were listened to with marked attention.

To-Day's Programme.

Session opens at 9:30 A. M.—This forenoon the services are as follows: "The Inspiration of Statistics Relating to our field," Rev. A. W. Bower; "The Elements of Success in Teaching," Hon. Dexter Horton; "How to Keep a Sunday School Library," H. H. Northup; "Feeding the Lambs," Mrs. R. S. Stubbs.

Afternoon Session—At 2 o'clock, "The Power of Sympathy," Rev. I. Dillon; "How to Conduct a Teacher's Meeting," J. K. Gill; "The Progressive Nature of Revelation," A. S. Coats.

Evening Session—7:30, "Sabbath Schools as Related to the Temperance Cause," Rev. T. L. Eliot; "Motives for Sunday School Work," Rev. H. K. Hines.

OREGONIAN RAILWAY COMPANY'S PETITION.

To the Honorable the Senate and House of Representatives of the State of Oregon:

The Oregonian Railway Company, limited, a corporation engaged in the construction of railways in the Willamette valley and from thence to eastern Oregon, respectfully shews:

1st. That since the 1st of May your petitioner has had built 10 miles of railway in Western Oregon, and is now about to extend their lines but to Portland and to Eastern Oregon. That in doing so it meets, and has continued to meet, with opposition from interested and adverse interests, especially in the city of Portland. That its line enters that city at the extreme south end thereof, and near the same is located a piece of ground called the "Public Levee." That there is no property whatever, with water frontage, that can be acquired and unoccupied between the Public Levee and the extreme northerly end of the city nearly two miles distant. That to avoid the damage to said streets and to private property by running steam engines and cars over these two miles of streets away from the water front where such line of railway would still damage the streets and be of no service to or have access to the river warehouses—your petitioners, although permitted to be general corporate laws of Oregon to run such steam engines to their depot grounds down whatever streets might be necessary to enable it to arrive thereat, preferred to select some other depot less injurious to property, and where no street would be occupied with its steam engines and cars.

2d. That the only place whatever not now belonging to other railways, with a water frontage, on which it is possible to get into smoothly and rightly without damaging the property of any the persons or endangering the same, and therefore sustaining no damage to any person or even in the streets of Portland, is a piece of ground, of one acre in extent, called the Public Levee, under the jurisdiction and power of disposal of the State of Oregon, but now held for the public at large, which is not now, nor for twenty years has it been, used in any way by the city or any person whatever, except as a dumping place for the filth of the city. Instead, therefore, of running their said engines and cars for two miles down the principal streets of the city, your petitioners preferred, to save any damage to the community of Portland, to locate and build depots their freight depot on such Public Levee, to get to which their engines will only run a distance of 300 feet through one portion of a street, where there is no travel.

3d. Accordingly, that your petitioners, under the law regulating the same, have applied to the City Council for the use of such Public Levee, seeing the same was of no value or used in any way by the city, and, although a petition was presented to such City Council, signed by 1,200 two thousand tax-payers and property-holders of Portland, requesting the City Council to give petitioners the use of such Public Levee, the said Council, being opposed to our entering the city of Portland have refused and continue to refuse to allow us the use of the same.

4th. That your petitioners desired to purchase the said public levee for its depot and negotiated therefor, but were advised that the title thereto was defective, and that no buildings or erections of any kind could be safely placed thereon by this railway company unless and until the legislature of the state of Oregon passed such a law, the same being public property it was solely under the jurisdiction of the state, and the city's title was inoperative.

5th. But knowing it was imperative for this railway company to get into the city of Portland in the interests of the people of the Willamette valley and eastern Oregon with its railway, and being opposed by the city council, your petitioners instituted a suit to condemn and appropriate the public levee for railway purposes, which is now in the courts. That this company has given obligations to and guaranteed the people of the Willamette valley to have its lines built into Portland on or before the first day of September next year, to carry next year's crop thereto, to enable it to do which, depot buildings and other erections must be placed on said public levee, and completed before the said first of September. That as no decision has yet been given by the courts in the said suit of condemnation, nor will it be possible to obtain a final decision from the supreme court of appeal until after this railway is opened into Portland, your petitioners and the people of the Willamette valley, to whom they have obligated themselves to enter Portland before the first of September, will thus be seriously damaged in their interests unless your honorable body grant to this railway company the right to use the said public levee without those delays which otherwise would render the right here asked of little or no value.

6th. That to protect the title and rights of the city of Portland in said public levee, your petitioners are willing to accept said ground from the legislature "subject to any pecuniary or property rights which the city of Portland may lawfully have in said premises which the state may not lawfully appropriate." By this provision inserted for its benefit the city has any rights these will be guarded by the bill now before your honorable body,—our whole object in consenting to same being to enable us to proceed at once with the work of construction of said railway from Portland to a connection with our two rail roads now in operation in the Willamette valley, without waiting for the tedious decisions of the courts which cannot possibly be received till after our line is in operation from this public levee to the Willamette valley.

For these reasons your petitioners would respectfully and earnestly ask your honorable body to pass into a law the bill now before you giving the right of way through state and public lands, &c., to this company. And your petitioners will ever pray.

VISIT TO THE DEAF-MUTE SCHOOL.

The joint committee on the part of the senate and the house of representatives, and the representatives of the press, by invitation of Rev. P. S. Knight, principal of the Oregon Institute for the education of deaf mutes at Salem, visited that institution yesterday, carriages having been provided for them at the expense of private individuals. Arriving at the grounds in South Salem, they were at once shown into the building, which throughout was not only neat and clean but likewise well adapted to the purposes for which it is used. The party was shown through the building from cellar to garret, and the home-like appearance of the surroundings was particularly noticeable on all sides. The dormitories were comfortably arranged and apparently well ventilated and healthy in the extreme. Mr. W. S. Smith, as teacher, has a well established reputation, and is universally conceded to be the right man in the right place. Rev. Knight and his estimable lady have immediate supervision of the school and are thoroughly interested in the work. The entire institution appears to be in a flourishing condition, and the legislative committee appeared well pleased with the result of the trip, the dinner hour being devoted to the discussion of the benefits to be derived from the proper sustenance of the deaf mute school, the general desire being evident that it was a most meritorious object, and one which the state should carefully foster.

The babies cry for it—the celebrated Molson's beer, to be had everywhere.

NEW YORK FREIGHT MARKET.

New York, Oct 12.—The freight market although somewhat better than a few weeks ago, still drags, notwithstanding the fact that but one line has ships on berth A number of orders have been received here, but they are being filled slowly and as a consequence there is not a very active market. Again a number of shippers hesitate about duplicating their freight on any one ship, and are holding back in the hope that other lines will have vessels soon For this state of affairs shippers have no one to blame but themselves Had they given other lines proper support, they would have had ships on berth and would not have put shippers at the mercy of any one line. But now that they are compelled to ship by one line and pay such rates as are demanded, they find fault with other agents for not having ships in berth merely to check advance in rates.

Rates for freight are firm on the basis of $8 per ton for round lots and a shade higher for small lots One thousand tons of coal for the lighthouse board was taken to-day at less than $8 per ton.

The H. S Gregory has sailed. Her cargo in part comprises 253 bbls whisky, 1100 cases lye, 200 tons coal, 1500 bbls cement 305 bbls rosin, 900 cases canned goods, 400 boxes tin, 125 bbls oil, 2500 bbls plaster and 2000 kegs nails

He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH,

Such as SPERMATORRHEA or SEMINAL WEAKNESS, or LOSS OF PERFECT VITALITY. Nearly two-thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system and yet this subject is neglected by the majority of the Medical Profession.

I know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time from a sense of modesty and sometimes from ignorance, and permit those diseases to exist until their constitutions become corrupted, their organization broken down and the hope of future happiness blighted, until death becomes a welcome messenger to carry them out of their miserable existence.

CELEBRATED

LIVER PILLS,

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE

Symptoms of a Diseased Liver

PAIN in the right side, under the edge of the ribs, increases on pressure, sometimes the pain is in the left side the patient is rarely able to lie on the left side sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm The stomach is affected with loss of appetite and sickness, the bowels in general are costive, sometimes alternative with lax, the head is troubled with pain, accompanied with a dull heavy sensation in the back part There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done A slight, dry cough is sometimes an attendant The patient complains of weariness and debility, he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin, his spirits are low; and although he is satisfied that exercise would be beneficial to him yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER

DR C McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results No better cathartic can be used, preparatory to, or after taking Quinine We would advise all who are afflicted with this disease to give them a FAIR TRIAL

For all bilious derangements, and as a simple purgative, they are unequaled

BEWARE OF IMITATIONS.

The genuine are never sugar coated

Every box has a red wax seal on the lid, with the impression DR McLANE'S LIVER PILLS

The genuine McLANE'S LIVER PILLS bear the signatures of C McLANE and FLEMING BROS on the wrappers

Insist upon having the genuine DR C. McLANE'S LIVER PILLS, prepared by Fleming Bros, of Pittsburgh, Pa, the market being full of imitations of the name *McLane*, spelled differently but same pronunciation
